

To whom it may concern,

08 March 2017

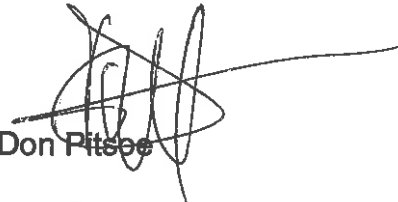

Courtney and the Vizibiliti Insight team have submitted solution to Tshwane Cable Theft Challenge. During this time they have endeavored to form a strong relationship with the stakeholders responsible for the project.

Courtney's involvement in the strategic and technical aspects of his business successfully won Vizibiliti Insight recognition as the winner of the regional Cable Theft Challenge.

Under his directorship his team showed best-in-class principals toward complex business problems to solve a major business risk with significant financial value. Further, Courtney and his team have shown commitment in participating in the initiative and driving a successful project.

I can therefore recommend Vizibiliti Insight's processes and competencies to whatever future partnerships and projects they may involve themselves with.

Yours Truly

Don Pitso
